AMENDMENTS TO THE CLAIMS

1. (ORIGINAL) A method for determining commission using a computer system comprising:

obtaining one or more transactions;
obtaining one or more quotas that specify one or more levels;
obtaining one or more promotions that specify a reward for one or more of said
levels;

calculating a performance of a recipient based on said transactions; determining if said recipient's performance qualifies for said promotion; and determining compensation for said recipient using said promotion if said recipient's performance qualifies.

2. – 44. (CANCELLED)
